Current Marketing Year
- Daily Sales reported
January 26 - February 3, 1976

--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of February 5, 1976 (based on reports from exporters during the week ending January 25, unless otherwise noted):

FURTHER CHANGES IN COMMITMENTS TO USSR: Since January 25, there have been several new developments in export sales of U.S. grain to the USSR. Wheat cancellations totalling 138,800 MT were reported which involve a portion of certain export sales originally made during the week ending July 24, 1975. These cancellations, which include 13,900 tons which had been scheduled for June 1976 shipment and 124,900 tons for July 1976 shipment, do not reflect a reduction of import purchases by the USSR. Reportedly, they stem from a USSR request for stepped-up delivery, which the seller was able to arrange, but which has also resulted in the commitment being shifted from U.S. wheat to wheat from another origin. Changes in destination of corn from unknown and Japan to the USSR totalling 301,200 MT were reported in the January 29 issue of this report, covering the period January 19 through 27, 1976. An adjustment has been made since that report reducing the total to 275,800 MT. The quantity now reported as destined for the USSR was changed from other destinations as follows: 47,200 MT from Japan and 228,600 from unknown. These adjusted changes are again listed in the daily-reported sales table of this publication since they concern sales made subsequent to January 25. In addition, a corn sale totalling 30,500 MT was reported under the daily reporting system for March 1976 delivery.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 747,900 metric tons (MT), the highest weekly increase since the week ending November 16, bringing this year's total commitment to 27.1 million MT. Major increases in commitments were to Brazil (395,900 MT), the Republic of Korea (99,900 MT), and India (72,100 MT). The new sales to Brazil represented the largest weekly increase to that country since the beginning of the marketing year. Total commitments to Brazil now stand at 2.3 million MT, compared with 600,400 MT for the corresponding period a year ago. Reports of additional upcoming activity from Brazil have now pushed the estimate of U.S. exports to that country over 2.5 million MT for the year, around 2 million MT above the level shipped during all of 1974/75. U.S. commitments to India, now totaling 4.4 million MT, are over 300,000 MT ahead of commitments at this time last year. India's imports from all sources this year appear likely to reach about 6.0 million MT, partly to help replenish stocks depleted during the past 3 years. In the case of the Republic of Korea, commitments totaling 1.2 million MT are around 200,000 MT below those of the comparable period last season; nevertheless, total 1975/76 imports from the U.S. should still approach last year's 1.5 million MT level.

Feedgrains: The apparent export commitment for feedgrains in 1975/76 rose by 768,500 MT, bringing this year's total commitment to 26.4 million MT. Corn commitments advanced by 682,500 MT, the highest weekly increase since December 14. Increased commitments to the European Community (EC) (234,900 MT), East Germany (175,400 MT), and the USSR (135,200 MT) represented 80 percent of the week's growth in commitments. The increased commitments to the EC now bring the total for the year to 5.1 million MT, compared with 14.9 million MT at this time last year. Actual shipments to the EC for the full year, however, reached only 11.1 million MT. In 1974, reports of a poor U.S. corn harvest precipitated abnormally large forward purchases, but some of them were subsequently cancelled. East Germany's commitments are running well ahead of last year's with 1.8 million MT already committed, compared with only 831,000 MT at the comparable period last year. The increased commitments to the USSR reflect transfers largely from optional origin rather than new sales.

Since January 25, feedgrain sales to Poland totalling 386,079 MT were reported under the daily reporting system: 71,000 MT of corn for 1975/76 delivery, 213,400 MT of corn for 1976/77 delivery, and 101,600 MT of grain sorghum for 1976/77 delivery.

Rice: The apparent export commitment for rice rose by 38,700 MT, largely because of increases to the EC (15,200 MT) and Zaire (17,300 MT). Total commitments for the year now stand at 873,000 MT, compared with over 1.6 million MT for the same period last year.

Soybeans: The apparent export commitment for 1975/76 increased by 287,200 MT, primarily reflecting new sales to the EC, Japan, Spain, and Taiwan. Commitments to unknown destinations declined by 85,000 MT, in large part because of transfers of outstanding sales to the known destination category--the most noteworthy being 25,000 MT sold and subsequently exported to the Soviet Union. Exports during the week totaled 363,300 MT with the EC accounting for 191,100 MT; Spain, 95,700 MT; Japan, 51,500 MT; and the USSR, 25,000 MT.

The 1975 sunflowerseed crop in the USSR is officially reported at 5.0 million MT, 26 percent below last year's 6.8 million MT harvest. Oil and meal outturn in 1975/76 are expected to decline to approximately 1.9 and 1.7 million MT, respectively, compared with 2.6 and 2.3 million MT a year ago. Soviet soybean imports are expected to approach 1.5 million MT during the current marketing year.

Soybean Oilcake and Meal: The apparent export commitment increased by 52,300 MT, primarily reflecting increased commitments to Czechoslovakia, Poland, Italy, and Canada. Exports during the week totaled 121,700 MT, the largest weekly volume shipped since the first week of December. The major takers were East Germany (34,000 MT), the EC (28,800 MT), Hungary (20,800 MT), and Poland (14,800 MT). Cumulative exports during the current marketing year of 1.4 million MT are now running about even with last year's. However, the apparent commitment of 2.5 million MT is still far below the 9.0 million MT level at this time last year.

Cotton: The apparent export commitment in 1975/76 for Upland cotton increased by 95,000 running bales (RB) on the basis of new sales to Indonesia, Japan, the Republic of Korea, and other Asian markets. Sales of 72,000 RB to Thailand for 1976/77 shipment were also registered. This was the first significant sale of U.S. cotton to Thailand since August 1, 1975. Cancellations of 29,000 RB were virtually all to Japan. However, these cancellations were more than offset by new purchases of 46,000 RB by that country. Foreign cotton prices showed little movement during the third week of January while U.S. prices declined about 300 points, bringing them to only about 2 cents above those for foreign growths. At this differential, U.S. cotton becomes more attractive to foreign buyers who are willing to pay some premium for U.S. supply and quality reliability.

OUTSTANDING EXPORT SALES AND EXPORTS - 1975/76 MARKETING YEAR
